I'm going on an airplane with my family. We are going to _____.

First, we will go to the airport. That's where all the planes are. It might be crowded.

When we are at the airport, we will get our tickets and check in for our flight.

After we get our tickets, we will go through a security checkpoint. I will walk through a scanner.

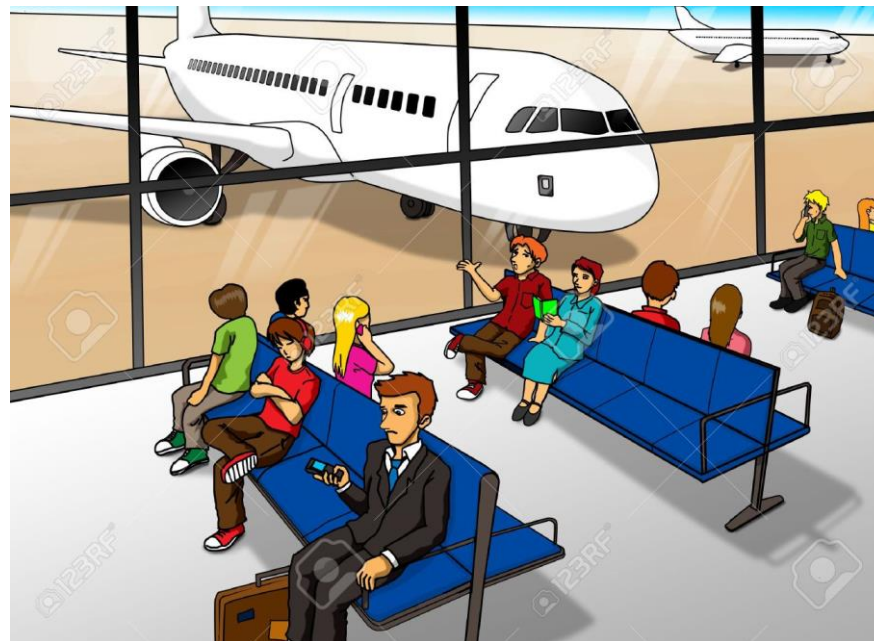

We can't carry anything through the scanner, so we will put our things in a bin. I'll get my stuff back after a few minutes!

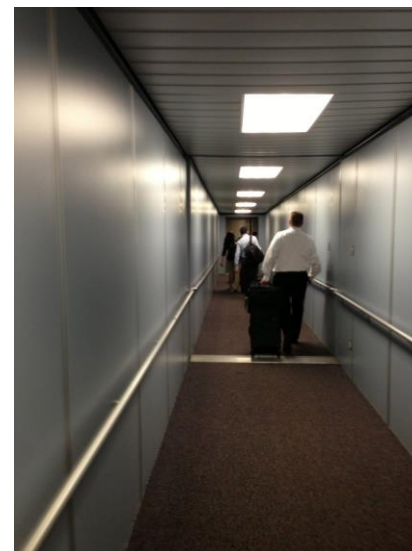

Next we will go to our gate. This is where our plane is.

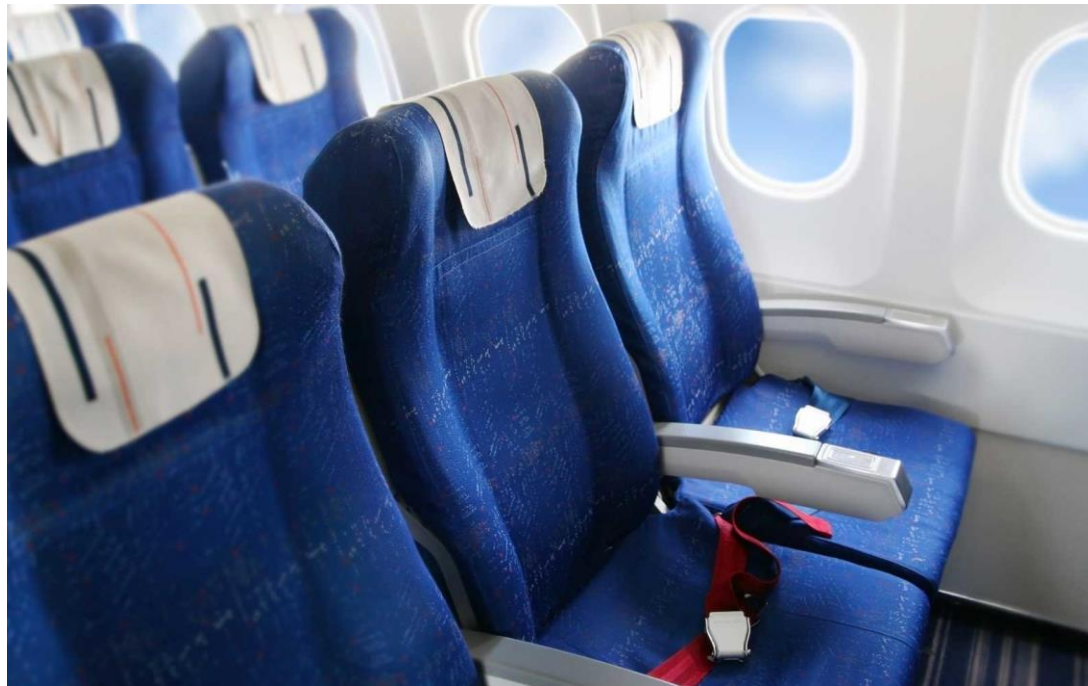

We might have to wait for our plane. While I'm waiting I can _____.

When it's our turn to get on our plane, we will give our tickets to the person at the gate and walk down the ramp.

Then we will find our seat.

We have to wear seatbelts on the airplane. Just like we do in the car!

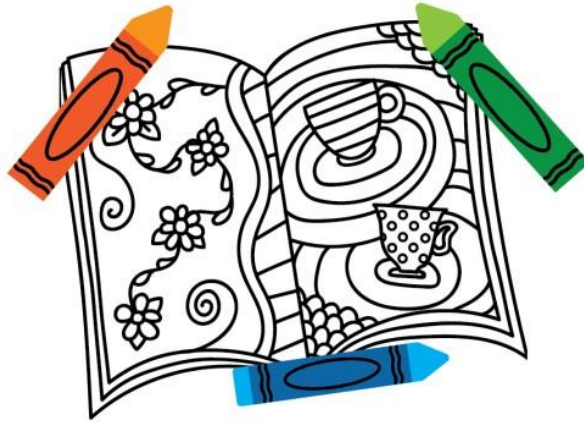

Flight attendants will help me when I'm on the airplane. They will make announcements and bring us food and drinks.

The pilot drives the plane. He will tell us when it's time to go.

The pilot will tell us to turn off electronics like iPads. I can color or look at books or _____.

**When the plane lands, I'll be in a new place!
Riding on an airplane can be fun. I'm ready for my
trip!**
