Secondary School:

First	Then	Next	After
 <p data-bbox="233 1354 365 1393">school</p>		 <p data-bbox="974 1364 1358 1403">Practice Trick or Treat</p>	 <p data-bbox="1558 1352 1675 1391">home</p>

First/Then boards are visual support tools that can be used to teach a logical sequence of events.

Instructions on how to use the First/Then visual schedule:

1. Fill in the blank with what you are doing after school/before coming back to Practice Trick or Treat. E.g., place a picture of home or a restaurant or an image of your child's costume. (Google images are great for finding pictures or take one of your own!)
2. After school show the First/Then board to your child. Start with the First picture of school and cross it off while telling them that school is done.
3. Point to the Then picture and let your child know where you are going next.
4. Show them the Next picture of the Primary School with the Halloween image and tell them you're going back to the school for Practice Trick or Treat and Trunk or Treating.
5. Lastly, show them the After picture of home, and let them know you'll be going home after Practice Trick or Treat.

*Cut, paste, and edit the images to fit your needs!
